Missing for less than 24 hours in Jupiter FL... Teddy is now SAFE & HOME!!! Here is Teddy's story told by his owner...

The Garcia's 🧑🧒 were visiting grandmas house that Week from Miami, Florida. It was mommies and big sisters birthday that Sunday, so we all celebrated together by the beach. We love visiting Jupiter and plan to move there very soon.

Later that week on a Wednesday evening we all went to bed early, tired from an already busy week. Grandma had come back home from running errands with grandpa (Teddy's grandparents) and they were bringing the groceries inside the house. Grandma and grandpa are not use to having a pet around while they bring in the groceries and Teddy had snuck out of the house without them noticing.

They went to bed and the next morning mommy had waken up early in a rush to go to work, she told daddy and big sister to have an amazing day. In the rush to go to work she really didn't have time to say goodbye to her little bear. Daddy had waken up soon after and called Teddy for breakfast but he was nowhere to be found. Daddy checked his "wewe" pad and there was no "wewe", it was clean... there with no trace of Teddy.

He woke up the grandparents and they recalled leaving the door open while bringing-in the groceries. Daddy had realized our little-tiny Teddy bear was lost. He called mommy all choked up in desperation, "baby, teddy is missing" oh my God, the hardest yet most painful words you can tell someone about their loved one. Teddy is part of our family and he is loved and treated as one of our own. Mommy started crying, in desperation asking how and when. She felt so guilty, now her Teddy bear had been missing for 10hrs and Mommy left work right away to start on her search. She will not give up for any reason or circumstance.

Her first stop was the two shelters in West Palm beach, thinking to herself on how heartbreaking all their little faces looked (dogs & cats) at her with the "take me" face. Mommy was in tears and hoping she will find her little one before something horrible happened to him.

Daddy was at home doing research on what to do and where to look, he found PI Jamie Katz. He couldn't believe it was real, like really? A pet detective really exist? As a boy he had watched "Ace Ventura" played by Jim Carey, a pet detective doing the impossible to find and bring home missing pets. He read Jamie's stories and it gave him hope of bringing teddy home soon. Right away we decided to bring Jamie on- board with our search.

Jamie's media blast with her unique eye catching posters was being shared like crazy and we continued to encouraged others to share as we requested permission on Facebook pages like "Loxahatchee lost and found & Jupiter lost and found pets plus many more. We all continued with the hope that someone had seen Teddy and would call.

While the poster were being shared, all of these amazing people offered support and were looking for Teddy on bikes and driving cars around the neighborhood while others used prayers. We had decided that before we took another step forward we needed to seek and ask for peace, wisdom and guidance from our Lord, Jesus. He has delivered to us before he will again. He gave us Teddy he will give him back. Faith and prayer played a big role in our search to bring Teddy home.

Later that evening we received directions from Jaime with strategic map pin points on where to plant our signs. Diligently right after we picked up the signs and all the tools needed... by that time it was already night.

On our drive back home someone had text us this, "I'm sorry to text you this late but is this you dog?" The text came with a picture of Teddy! My heart dropped as I felt a cold shiver and realized it was our Teddy. He looked tired, lost, hungry & thirsty. Oh my God he knew he was lost, I replied immediately confirming it was my lost pet.

Soon after she had told me someone in her community Facebook page had posted this earlier. She offered to help me find him with her neighbors. Seconds after, Gina called me "We have your dog" happy tears running out of our eyes with our hands in our hearts, truly believing it was a miracle from above. This amazing human being and her family had sheltered our little Teddy Bear with her other two Pomeranians and refused to take our reward, saying that she also has two pets and she would die if anything happened to them and. She did it out of love and compassion... how amazing is that?!

There are still humans with the capability of giving out of love and expecting nothing in return. In less than 24hrs we found our little Teddy 🐻 a big thank you to our God for holding us strong and giving us the courage to continue.

To our family and friends for the moral support and a special thank you to PI Jamie Katz for her passion of finding the missing and her God gifted knowledge. Thank you to Gina and her family, to the lovely woman for that amazing late text... you saved us from having the worst night ever. Love you all so, so much! This is our story..
